

## GRIHA Council

This is to certify that the products of

### “Shree Premix Industries”

**Surface coating and finishing material:** Shree E-ECW Coat+ and Shree E-Floor Hardner+, Shree E-Plast+, Shree E-Plast+ (FC), Shree E-Plast+ (M30+) and Shree E-Putty+

**Pre-blended Jointing Material:** Shree E-Bond+, Shree E-Bond+ (EC), Shree E-Bond++ (Premium 30), Shree E-Tile Bond+, Shree E-Tile Bond++, Shree E-Bed Mortar+, Shree E-Magratifix T3+ and Shree E-LB Adhesive+++

**Grouting material:** Shree E-NSG 60+, Shree E-Micro Concrete+, Shree E-Crack Filler+, Shree E-Plast EPA+, Shree E-Plast+ (FC) EF, Shree E-Plast+ (FC) M50+, Shree E-Plast+ (FC) M60+, Shree E-Cosmetic Repair Coat+ and Shree E-Tile Grout+

(under typology: Innovation - Environment Product Declaration)

have been included in the GRIHA Product Catalogue under the following categories:

**GRIHA V.2019: criterion: 30**

The products can be used in GRIHA registered projects to meet the GRIHA norms. This is valid only for the products which have been mentioned above.

The certificate for the above-mentioned products is valid from

**7<sup>th</sup> October 2025 to 6<sup>th</sup> October 2027**

**Sanjay Seth**  
Vice President & Chief Executive Officer

**Note:**

1. Before selecting the above specified products, it is recommended to revalidate that the project is meeting the GRIHA's mandatory compliances.
2. This evaluation has been done based on the documentation – in the form of 3rd party test results and/or declarations – submitted by the manufacturer to GRIHA Council.
3. The enlisted product(s) only qualify for the criterion mentioned in the certificate.

GRIHA Council is a joint initiative of Ministry of New and Renewable Energy, Government of India and The Energy and Resources Institute (TERI) to implement GRIHA (Green Rating for Integrated Habitat Assessment), India's National Rating System for Sustainable Habitats.

11	Shree E-Tile Bond+	0.507	23	Shree E-ECW Coat+	1.393
12	Shree E-Cosmetic Repair Coat+	0.52			

### Advantages to users for using Griha Registered Products

- **Guaranteed Sustainability Claims:** The GRIHA catalogue provides access to a database of green building products with verified sustainability credentials. This eliminates guesswork for builders, architects, and clients, ensuring that products meet GRIHA's strict environmental parameters.
- **Health and Well-Being:** GRIHA-compliant products are often free from volatile organic compounds (VOCs) and other toxic substances. This results in better indoor air quality, which directly benefits the health and comfort of building occupants.
- **Operational Cost Savings:** Green products, especially materials used for insulation, lighting, and water fixtures, are designed for efficiency. This leads to reduced energy and water consumption, lowering utility bills and overall operational costs for the lifetime of the building.
- **Environmental Impact Reduction:** By using GRIHA-enlisted products, users contribute to conserving natural resources, reducing waste, and lowering the overall carbon footprint of their buildings. This aligns with national sustainability goals and environmental protection.
- **Enhanced Market Value:** Properties constructed with GRIHA-listed materials can have a higher market value and rental demand. As consumers become more environmentally conscious, green-certified properties are perceived as premium, long-term investments.
- **Incentive Eligibility:** Using certified products can help projects achieve a higher GRIHA rating, which often makes them eligible for government incentives like property tax rebates or additional floor space index (FSI).
